Bharat Ratna, Padma Vibhushan,
Padma Bhushan & 11th President of India

Hon. Dr. APJ Abdul Kalam

(Scientist, Author, Statesman, Professor & Speaker)

"My message, especially to young people is to have ***courage to think differently, courage to invent, to travel the unexplored path, courage to discover the impossible and to conquer the problems and succeed.*** These are great qualities that they must work towards".

This inspirational quote from Bharat Ratna Dr. APJ Abdul Kalam sums up the crux of a modern day corporate leader who should have a strong character and impeccable integrity. Born in humble circumstances in a Muslim family in rural Tamil Nadu, a young boy who sold newspapers to help his family make both ends meet rose to the highest office in the land. He did so not through the conventional route of a political career but through the dint of hard work as a scientist in government service.

Dr. A.P.J. Abdul Kalam was really a true legend

for the youngsters of the country. He has inspired the new generation of the country through his whole life, career, great works in the field of technology. He still lives in the heart of Indian people as the People's President and Missile Man of India.

We at RIIM firmly endorse his views and truly believe that every student has the potential to become a great leader if he/she is provided the right environment. We make a student discover his potential and groom him to face the tough challenges of the corporate world.

When I came to, I was not so good in communication, I was an introvert person & used to have stage fear, but now I am confident enough which is only possible because of the training and grooming classes here. We attended various guest lectures, many corporate trainers came & motivated us for our future. I thank from the core of my heart to RIIM Family for being supportive in building my glorious future.
