Student Testimonial

Pratik Ghosh
Gartner

The SIP process was very good. By providing support and managing a seamless placement procedure, the placement coordinators have greatly contributed. I am thrilled to have received an internship offer from Gartner and delighted to have the opportunity to work with such a MNC.

Kaushal Agarwal
ICICI Bank

The SIP process was very smooth, and we were guided for each step of the interview process. The college also took mock GDPI session and a doubt clearing session before the interview process to make sure we were well prepared for it.

Nikita Mandal
Digit Insurance

When Digit Insurance had started its application procedure, we were quite nervous and unsure about what would happen but the HR of that company gave us a walk-through about the company, what would our work look like and cleared our doubts. It was nerve-wrecking to see so many applicants from IMI-K as well as other colleges as well. After a group discussion and multiple rounds of personal interviews, I got the message that I had bagged the internship, I was overjoyed. The placement committee was very supportive throughout the process and I'll always be thankful for this opportunity.

Deblina mandal
HPCL

Hindustan Petroleum Corporation Limited was one of my dream organizations; coming from an engineering background, I had always wanted to specialize in operations, and being picked for an internship in the field was a dream come true. The Placement team had seamlessly and efficiently organized the process. The placement's preparatory session has been quite beneficial. I'm excited to learn a lot from this SIP at HPCL.

Sreeparna Saha
Reliance Retail

Being from BSc Psychology background, I was always very keen to take HR and Marketing as my specialisation. Reliance Retail gave me the golden opportunity to intern with them in the field of market research. It will help me gain in hand experience about consumer behaviour and their buying behaviour which is an integral part of marketing, HR as well as psychology.

Arunangshu Banerjee
Royal Brothers

The SIP process was well coordinated and smooth. Overall it was a great learning experience for me. I wanted to get a SIP in the operations specialisation, and with the help of the placement team and the institute I was lucky enough to receive an offer in a suitable operations profile. The procedure was extremely well-coordinated and smooth. Overall, it was a wonderful learning opportunity.
